

InterApp

Manufacturer's Declaration

According to directive 2014/34/EU

Corresponding to EC directive 2014/34/EU dated 26 February 2014 and to the legal regulations the manufacturer

InterApp AG
Grundstrasse 24
CH-6343 Rotkreuz

declares that the explosion proofed product described in the operating and safety instructions

Centric Butterfly Valve Series

- **Bianca DN32-900, body types B1, B3, B4**
- **Desponia DN25-1600, body types D1, D3, D4**
- **Desponia plus DN25-600, body types DP1, DP3**
- **Himalia DN50-300, body types H1, H3**

is no equipment according to article 1 of the directive 2014/34/EU.

The valves can be used in potentially explosive areas.

In potentially explosive areas, the user is obliged to identify dangerous ignition sources, perform a risk analysis of the entire system and initiate the necessary preventive measures. Therefore the use of conductive versions might be necessary.

Electrical and mechanical actuators as well as accessories are subject to a separate conformity analysis according to ATEX.

The user is responsible to consider all the safety instructions for applications in explosion hazardous areas.

Additional safety instructions for the proper selection the InterApp valves materials and their use in explosion hazardous zones are listed in the document „IA-Butterfly-Valves-ATEX_XXXen.pdf“, which can be downloaded from www.interapp.net → DOWNLOADS → Butterfly Valves → ATEX Butterfly Valves.
